

# Low Voltage Spool & Shackle Insulator

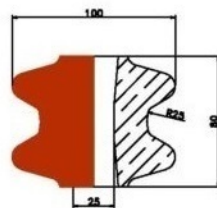

These insulators are applied on low voltage overhead distribution lines for fixing of conductors to poles.

This group of our manufacturing range includes low voltage insulators (Shackle, Spool) standardized in accordance with DIN and ANSI standard application.

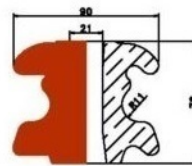

Product No.			039-00	039-01	039-02	055-01	076-00	076-01	076-03
Creepage distance		mm	65	66	60	60	60	57	57
Mechanical strength		KN	8	8	6	8		12	12
Withstand Voltage	Power frequency	Dry	22	23	22	20	18	18	20
		Wet	9	10	8.5	9	6	6	8
Net Weight (Approx.)		kg	0.55	0.6	0.5	0.3	0.5	0.4	0.5
