

# Post Insulator

The post insulators are used in medium voltage 12,25 KV with leakage path 440 mm up to 1047 mm with mechanical strength up to 4 KN and can be used both indoor and outdoor application.

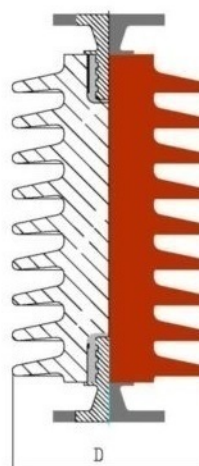

Product No.		029-00	029-01	030-00		
Type		P70	P70s	P13		
Rated Insulation voltage	KV	25	25	36		
Total creepage distance	mm	440	500	1047		
Height (H)	mm	250.5	257	380		
Biggest Diameter	mm	127	131	180		
Bending falling load	KN	4	4	4		
Number of sheds	Nos.	6	6	9		
Arcing Distance	mm	193	193	305		
Withstand Voltage	one minute power frequency	Wet	KV	50	50	50
		Impulse	KV	130	130	150
Net Weight (Approx.)	kg	4.5	4.5	11
